

COLD STORAGE

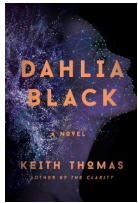

by David Koepp

A debut novel by the screenwriter of Jurassic Park follows the desperate mission of a Pentagon bioterror operative and two unwitting security guards to contain a highly contagious, deadly organism.

THE CRUEL STARS

by John Birmingham

A band of reluctant heroes becomes civilization's protectors when a genocidal army of cybernetically enhanced beings, believed defeated centuries earlier, returns to annihilate all human life.

DAHLIA BLACK

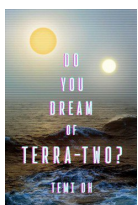

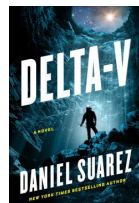

by Keith Thomas

Five years after the mysterious Pulse, an alien code that hacked the DNA of Earth's population, an acclaimed journalist sets out to make sense of the event that altered the world.

DELTA-V

by Daniel Suarez

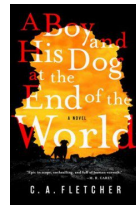

A billionaire recruits a team of adventurers to launch the first mining operation in space—with the aim of kick-starting an entire off-world economy—but the team soon discovers the extreme risks they'll be facing.

DO YOU DREAM OF TERRA-TWO?

by Temi Oh

When an Earth-like planet is discovered, a team embarks on a 20-year trip to set up a colony, but find that space is more deadly than they could ever have imagined.

A BOY AND HIS DOG AT THE END OF THE WORLD

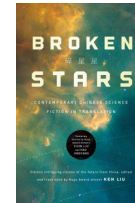

by Charlie Fletcher

When a beloved family dog is stolen, her boy owner sets out on a life-changing journey through the ruins of a dystopian world to find her.

BROKEN STARS

by Ken Liu

Collected, translated and edited, an anthology of Chinese science fiction features stories from the Hugo Award-winning author Cixin Liu as well as Chen Qiufan, Bao Shu, Xia Jia, Zhang Ran, Tang Fei and Han Song.

CHILLING EFFECT

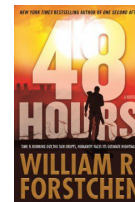

by Valerie Valdes

After her sister is kidnapped by a shadowy syndicate known as The Fridge, the foul-mouthed Captain Eva Innocente and her motley crew aboard La Sirena Negra must pay the ransom through a series of dangerous missions.

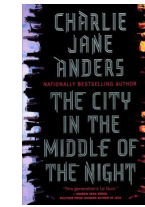

48 HOURS

by William R Forstchen

A catastrophic solar explosion leaves the human race with 48 hours to prepare for the near-extinction of all life on the planet.

SCIENCE FICTION 2019 RECOMMENDED FICTION FOR ADULTS

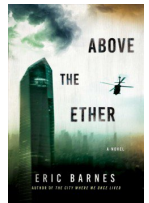

THE CITY IN THE MIDDLE OF THE NIGHT

by Charlie Jane Anders
A reluctant revolutionary survives exile by forging an unusual bond with a family of ice creatures that live outside the human confines of their dying planet.

ABOVE THE ETHER

by Eric Barnes

A mesmerizing dystopian novel that follows six sets of characters moving through a landscape just beginning to show the signs of cataclysmic change.

ANCESTRAL NIGHT

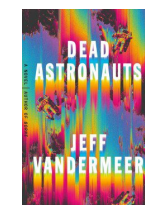

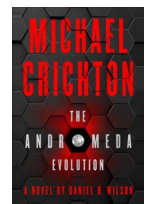

by Elizabeth Bear

Two salvage operators searching through derelict spaceships make a shocking discovery about a species long believed to be dead.

THE ANDROMEDA EVOLUTION

by Daniel H. Wilson

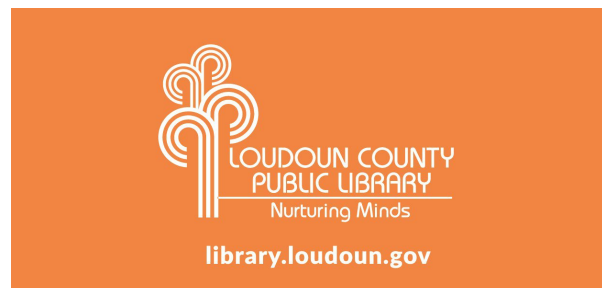

A Brazilian drone detects a bizarre anomaly in the jungle with the same chemical signature of the microparticle that once nearly ended all life on Earth.

DEAD ASTRONAUTS

by Jeff VanderMeer

Lives converge in terrifying and miraculous ways in a nameless city overshadowed by a brutally powerful company.

the dreamers

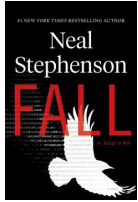

by Karen Thompson Walker

A student at an isolated Southern California college town witnesses a strange sleeping illness that subjects patients to life-altering, heightened dreams.

POLARIS RISING

by Jessie Mihalik

Thrown in prison for trying to escape an arranged marriage, Ada must make an ally of a fellow prisoner in order to avoid a return to her home planet.

FALL; OR, DODGE IN HELL

by Neal Stephenson

After a complication during a routine medical procedure leaves multibillionaire Richard "Dodge" Forthrust brain dead, his family uploads his brain into the cloud until technological advances allows it to be revived

finder

by Suzanne Palmer

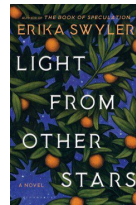

All thief Fergus Ferguson has to do is steal a spaceship from a power-hungry trade boss, a task made complicated by the dangerous alien species, once thought mythical, that's following him around.

Gamechanger

by L. X Beckett

A late-21st-century public defender who helps individuals with anti-social behavior tries to figure out why her client is wanted by world governments and why he is determined to stop the recovery of the planet.

LIGHT FROM OTHER STARS

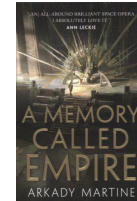

by Erika Swyler

Decades after her grieving father, a laid-off NASA scientist, triggers chaotic changes in his pursuit of life-extending technology, an astronaut confronts dangerous family secrets to stop a world-threatening crisis.

A memory called empire

by Arkady Martine

Taking over for an ambassador who died a suspicious death, Mahit Dzmare investigates the potential murder while navigating an alien culture that is hiding a technological secret that could impact the universe.

PERIHELION SUMMER

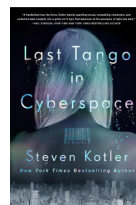

by Greg Egan

A black hole one tenth the mass of the sun is about to enter the solar system, changing the conditions of life across the globe and leaving people desperate to survive.

EARTH

by Ben Bova

Offered shielding technology by an alien race that would save Earth from a lethal gamma radiation wave, humanity agrees to help rescue other planets before the expansion of humans throughout the galaxy leads to bitter divisions.

LAST TANGO IN CYBERSPACE

by Steven Kotler

A psychic empathy tracker stumbles across a murder that catapults him into an underworld of eco-assassins, soul hackers, and consciousness terrorists.

Here and now and then

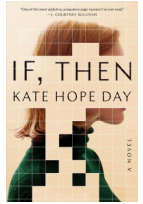

by Mike Chen

Stranded for 18 years since the 1990s, time-traveling agent Kin Stewart, suffering from memory loss, has started a new life, but when rescuers from the year 2142 finally arrive, he must choose between his current family and the one he left behind in the future.

IF, THEN

by Kate Hope Day

Four neighbors in a quiet Oregon mountain community find their lives upended when they begin to experience disturbing visions of an alternate reality.

THE LAST ASTRONAUT

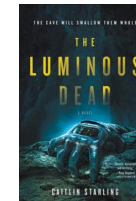

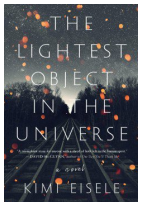

by David Wellington

Retired astronaut Sally Jansen must lead an expedition to communicate with a large alien object poised above the Earth.

THE LIGHTEST OBJECT IN THE UNIVERSE

by Kimi Eisele

In a powerless world after a global economy collapse, an East Coast man desperate to reunite with the woman he loves encounters a menagerie of lost souls, opportunists and would-be rebuilders on a cross-country railroad journey.

THE LUMINOUS DEAD

by Caitlin Starling

A caver on a foreign planet finds herself struggling to survive after her manipulative teammate spirals their expedition into darkness and the deadly unknown.
